FI-FOIL® Garage Door Kit
Installation Instructions

Included in Garage Door Kit
1 Roll RBI Shield
1 Roll Double-Sided Tape
1 Alcohol Wipe
Installation Instructions

Tools Needed to Install it
Razor Knife
Tape Measure
Square Edge

Step 1
Thoroughly clean garage door so double-sided tape will stick firmly

Step 2
Measure inside of framework of each panel of the door

Step 3
Cut RBI Shield™ to fit into framework of each panel of the door

Step 4
Install double-sided tape on inside edge of each panel where RBI Shield™ will be installed; *Do not yet remove front backing from tape at this point*

Step 5
Position the cut piece of RBI Shield™ into each panel of the garage door

Step 6
Remove front backing of double-sided tape, one strip at a time, and carefully press RBI Shield™ into place

Step 7
Repeat each of these steps until entire garage door is complete

Alternative Continuous Insulation Method
Apply RBI Shield™ to face of framework, securing with double-sided tape, placing behind mechanical fastners (not included)
