

Reflective Bubble Insulation FI-FOIL® RBI MAX

**5X Stronger
Alternative with
UV Protection**

HIGH THERMAL PERFORMANCE
REFLECTIVE INSULATION

FI-FOIL® RBI MAX Woven Reinforced Bubble Insulation

Our toughest bubble insulation provides greater strength during installation and exceptional durability over the life of the product. Keeps buildings better protected, more energy efficient, and looking great for years. With UV inhibitors and a sturdy woven fabric facing bonded to premium reflective bubble, RBI MAX provides a next generation solution for insulating post frame and metal buildings.

THE DIFFERENCE

- ✓ 5X the Strength of Bubble Insulation
- ✓ Woven Facing with UV Inhibitors
- ✓ Puncture & Tear Resistant
- ✓ Greater Durability Over Lifespan of Product
- ✓ Less Fasteners Needed
- ✓ White Facing Provides a Clean & Brighter Building

SAME TRUSTED PERFORMANCE

- ✓ Reduces Condensation
- ✓ Prevents Delamination
- ✓ Stops 94% Radiant Heat Transfer
- ✓ Improves Energy Efficiency to Lower Operating Costs
- ✓ Keeps Buildings More Comfortable Year-Round
- ✓ Available in 48" & 72" widths
