

Reflective Bubble Insulation FI-FOIL® RBI SHIELD™

Our R & D Team has carefully researched, tested, and selected several compounds to formulate the highest grade white polymer surface on the market.

Every roll of Fi-Foil Reflective Bubble Insulation (RBI) is precisely formulated and manufactured to meet our strict standards of quality and consistency.

We pack more air in each bubble and our manufacturing process bonds the polymer and reflective film together in a one-step process which allows our bubble to maintain thickness and strength versus others on the market.

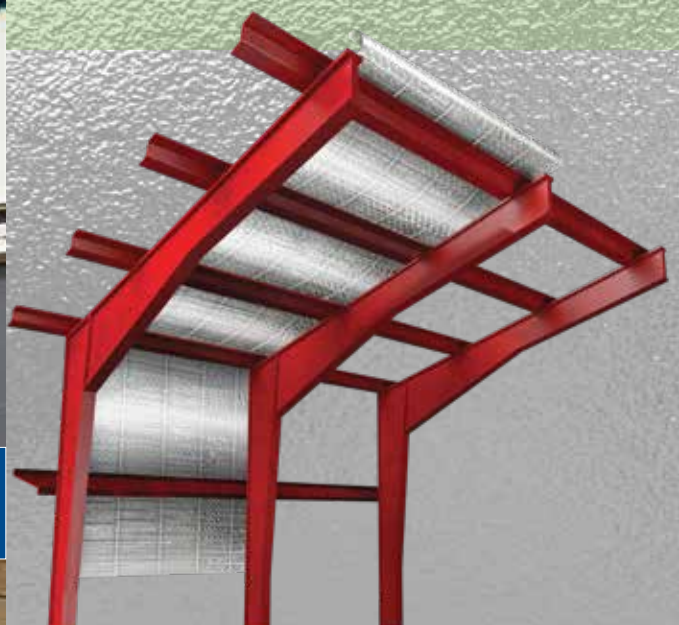

Protect your assets with best-in-class performance and a Lifetime Limited Warranty.

A Premium Bubble Insulation with Lifetime Protection.

- ✓ Reduces Condensation
- ✓ Prevents Delamination
- ✓ Stops 95% Radiant Heat Transfer
- ✓ Improves Energy Efficiency to Lower Operating Costs
- ✓ Keeps Buildings More Comfortable Year-Round
- ✓ Class A Flammability Rating
